Come and see the Oldsmobile Fast Roadster—the 4 cylinder, 2 passenger, 20 h. p. car, speed 60 miles an hour. Price \$2,250.

Oldsmobile

The good old standby—the \$2,250 Oldsmobile Roadster—is made in two styles now—curved dash and straight. We have both kinds to show you.

Price, \$2,250

Tremendous Success OF THE 4-Cylinder Palace Touring Car!

We earnestly advise you to order at once if you have decided to buy one of these cars. We have not yet sold all of our guaranteed allotment from the factory, but at the rate we are going we shall surely be over-sold for early delivery. Get in on the guaranteed allotment by placing your order now. Then you will not have to wait.

If there is an essential lacking in this car to make it all that can be asked for in an automobile, we should like some one to point it out.

It is strong—in no place is strength sacrificed for economy. It has power—it will take the hardest hills on high gear without the least hesitation. It has speed—plenty of it—50 miles an hour without the slightest overstrain on the machinery. It is handsome—the body is built on the lines of the best French practice. The only cheap thing about it is the price—\$2,250. Let us give you a ride in the Palace Touring Car before you decide on ANY car.

READ THESE SPECIFICATIONS:—

Price—\$2,250. Body—Wood. Side door entrance. Color—Brewster green, with thin red striping. Seating Capacity—Five persons. Total Weight—2,300 lbs. Wheel Base—104 inches. Wheel Tread—55 inches. Tire Dimensions, front—32x3½ inches. Tire Dimensions, rear—32x4 inches.

Steering Wheel: Irreversible. Worm and nut device. Brakes—Two: cardan shaft operated by pedal; rear hub operated by lever. Gasoline Capacity—15 gallons. Frame—Pressed steel; channel section. Horse Power—20-25. Number of Cylinders—Four. Cylinders Arranged—Vertically under hood.

Cooling—Gear pump circulating water through flat tube radiator. Ignition—Jump spark, with dry cell and storage cell. Drive—Bevel gear direct. Transmission—Sliding gear; one lever selective control. Speeds—Three forward and one reverse. Style of Top—Canopy or extension top furnished on special order.

Comparison of values—not prices alone show that the new models of the

RELIABLE

Rambler

occupy a unique position.

They are easy to control and care for. Their simplicity appeals to the non-mechanical mind. They deliver more (actual) power for the price than any other make; are light in weight, with due regard to structural strength, and are acknowledged to be the perfection of automobile construction.
